

UTILITY/MECHANIC GLOVES CATALOG

Dear Customers,

We would like to thank you for reviewing our brochure which contains the representative portion of what we are making right now based on OEM glove manufacturer so any business dealt with us is factory direct.

With production facilities located in Pakistan, you can be assured that working with us on your glove program will prove to be highly rewarding.

Not only will you be able to reap all the benefits of working directly with a manufacturer but in addition, you will receive the best service this industry has to offer. Sazman has been in the glove manufacturing business for close to four decades and over the years, we have developed many key methods to increase our efficiency and level of services to our customers.

There are few, if any, manufacturers who offer such a complete glove program such as ours. It has and will always be our goal to provide our best manufacturing services to our customers. Some of the important support and services we can provide include: research and development, design and analysis, marketing support consultancy. Our aim is to develop more of our partnership with our customers, rather than just a vendor - purchaser relationship.

With Sazman, you can be assured of receiving top quality service and OEM/ODM/SMU products.

We would greatly appreciate it if you would take a little time to review this brochure and contact us for further inquiries,

Thank you

Team @ Sazman

OEM GLOVES PROGRAM:

Option 1: Start with any existing product in our line and customize it to your needs, we will make it in any color & material and applications shown below.

Option 2: Bring us any glove currently or formerly made and we will make it for you. Your favourite glove style may have been discontinued or no longer available from another manufacturer. A sample of the same is all we need in most cases to bring it back to life. Off-course the customized features shown below can be applied.

Option 3: Design your own glove with the combination of materials you are aware of or ask us for help. You can also choose any or all applications for branding.

For further details and required specifications, please contact us.
