Module expanded to add additional information

Helper text prompts user to enter values

RADIO BUTTONS: User must select one of the primary buttons (Internal to Visa OR External to Visa) then from that selected state MUST choose Enable or Disable

User selects API associations from drop down on left

selections are on the right

Navigates to API metadata screen to add an API

when opened on click of arrow scrollable list displays

- <API Name1>: v1
- <API Name2>: v2
- <API Name3>: v3
- <API Name4>: v1

User selects API associations from drop down on left

While selections are on the right User must SAVE any updates or additions - IF ANY UPDATES NOT SAVED A PROMPT WILL DISPLAY TO SAVE!

save and publish Buttons not displayed once published

SAVE PROMPT if user does not SAVE updates to metadata - 6/26

The screenshot displays the VISA Developers Admin Panel. At the top, the VISA logo and 'Developers' text are on the left, and 'Logged in as: John Weather' with a 'Logout' button are on the right. The main heading is 'Admin Panel'. A left sidebar contains navigation links: Users, Approval Queue, API Resources (REST), Resources <Name>, APIs, API Categories, Products, and Static Content. The main content area is titled 'Resource <Name> Metadata' with the subtitle 'Define configurations to create and/or edit Resource metadata.' A modal dialog box is centered on the screen, titled 'Save Updates' in blue. The dialog text reads: 'You must save updates made to this metadata page.' Below the text are two buttons: a yellow 'Save' button and a blue 'Cancel' button. The background page is dimmed and shows sections for 'REQUIRED INFORMATION' (Resource Name, Resource ID, Method Type, API Type) and 'ADDITIONAL INFORMATION' (Resource Description, Header Attributes, Throttle Limit, Quota Limit, SLA, Resource Availability). At the bottom, there is an 'API ASSOCIATIONS' section with a dropdown menu and a list of selected APIs.

Confirm Publish a Resource - 6/26

The screenshot shows the VISA Developers Admin Panel. At the top, the VISA logo and 'Developers' text are on the left, and 'Logged in as: John Weather' with a 'Logout' button are on the right. The main header is 'Admin Panel'. A left sidebar contains navigation links: Users, Approval Queue, API Resources (REST), Resources <Name>, APIs, API Categories, Products, and Static Content. The main content area is titled 'Resource <Name> Metadata' with the subtitle 'Define configurations to create and/or edit Resource metadata.' A 'REQUIRED INFORMATION' section contains fields for Resource Name (Name of Resource), Resource ID (Auto Generated, 1234-3456-6789-3456-1234), Method Type (GET), and API Type (REST). Below this is an 'ADDITIONAL INFORMATION' section with fields for Resource Description, Header Attributes, Throttle Limit (calls per seconds), Quota Limit (calls per day), SLA (per milli seconds), and Resource Availability (Internal to Visa/External to Visa, Enable/Disable). At the bottom, an 'API ASSOCIATIONS' section shows a dropdown for '<API Name>: v1' and a 'Selected APIs' list containing '<API Name 4>: v2' and '<API Name 3>: v1'. At the bottom right, there are 'Publish', 'Cancel', and 'Save' buttons. A white 'Publish Confirmation' dialog box is centered over the page, containing the text: 'Publish Confirmation', 'Please confirm that you choose to publish Resource <NAME>.', and 'NOTE: This action may not be revoked.' with 'Confirm' and 'Cancel' buttons.
