

# Final Concept

Easy to hold for all hand sizes.

Wide flat top so that it can be stored upside down

Contored hand and thumb grip make it easy to hold in use

Gripe on front and back so you can squeeze while in hand.

This bottle makes it much easier to apply to pet. its ergonomic grip is located on the front and back where the squeezing is done, eliminating the process of moving the hand to squeeze.

Bottle is very comfortable to hold in hand
