- MOOSE PLOW**
Formed from 11-gauge steel, plow blade has a curved design that provides better snow/dirt roll-off at any angle. Our standard 50" blade clears a 44 1/2" path when angled and our 60" blade clears 53 1/2" path when angled. The 72" blade is designed for utility vehicles, ATV's 500cc and larger and clears a 64" path when angled. Rubber plow flap sold separate. 72" blade comes standard with plow flap.
- COUNTY PLOW**
Features a "wing" design and blade curve that guides snow up and away from the surface you're clearing. The height of the wing measures 26" tall with the plow tapering down to 16" at the end. Standard rubber plow flap helps keep snow from blowing up and over into your face. Side shield sold separate.
- PLOW SIDE SHIELD**
Reduce the amount of snow or dirt overflow. Put side shields on both ends of a straight blade to contain even more plowed material. Constructed from sturdy, 11-gauge steel and measures 15" tall x 10" deep. Some drilling is required. Fits both the County Plow and the Moose Plow. Sold separate.
- RUBBER PLOW FLAP**
Increases your control of airborne snow while plowing. Comes standard on County Plow size 60".
- HEAVY-DUTY WEAR BARS**
Available in 3" heavy-duty design for Moose and Cycle Country blades. Comes standard on Moose and County plows.
- PLOW MARKERS**
Clearly marks plow edges for increased visibility and safety. Hard rubber construction for durability; sold in pairs.
- PLOW LIGHT MOUNT KIT**
Base made from steel. Light support arms made from 7-gauge steel. Made for long lasting durability. Great for night time, or early morning plowing. Attaches to front rack of ATV. Attach the Moose halogen light kit (MDL01). Uses 1 1/8" ubolts. MDL01 - Halogen light kits are sold separately. \$31.95
- PLOW REPLACEMENT PARTS**
Miscellaneous replacement parts.
- BLADE SKIDS**

1 EXTENDED LIFT BOTTOM MOUNT
Quick-connect mounting hardware for easy hook-up and fast removal. Plow bottom mount kits include all necessary hardware to attach universal push tube and plow. Updated mount provides more ground clearance after the plow blade is removed for summer.

2 PUSH TUBE CONVERSION KIT
Kit converts old-style push tubes for use with extended lift system bottom mount kits. Updated bottom mount also provides more ground clearance after the plow blade is removed for the summer.

3 ELECTRIC PLOW LIFT BY WARN®
The Actuator is designed with a dual purpose in mind: to lift the plow without manual effort, and leave the winch for what it was designed to do. A handlebar-mounted switch can be operated without removing your hand from the grip. This switch is built to survive rain, cold, mud and crud and still perform. Single-line pulling capacity is rated at 300 lbs., more than enough power to reliably lift the heaviest blade. Kit includes the new cable termination strap. Each kit includes a handlebar switch, wiring harness, cable termination strap, and all necessary hardware.

4 EXTENDED LIFT PUSH TUBE
Increases ground clearance. Blade swivel constructed of 3/8" steel. Five blade swivel positions and four-way blade pitch adjustment.

5 WINCH MOUNT KIT
Winch mount kits accept Warn®, Superwinch® and all Moose winches. Comes complete with roller fairlead.

6 UNIVERSAL HAND LIFT
Adjustable stop for a universal fit. Equipped with a longer handle for increased leverage. Designed to disconnect with the push tube and blade when not in use.

7 E-Z LIFT
Rack-mounted lift system. Spring-assist for quick-and-easy lifting. Heavy-duty lift pivot with grease fitting.

8 MOOSE 1.7 WINCH
1700-lb. capacity winch. Draws a mere 70 amps at 1,700 lb. 12V DC motor with 112:1 gear ratio. Free spool cam-activated clutch and standard mechanical disk brake. 50' of 5/32" cable. Handlebar-mounted mini-rocker switch with contactor gear train.

9 MOOSE ATV 3000 WINCH
A 1.1hp motor with 3,000 lbs. of pulling capacity. Handlebar mounted toggle switch and heavy-duty sealed switching relay. Free spooling clutch with mechanical, dynamic braking and 3/16" x 50' of wire rope. Color coded wiring for easy installation.

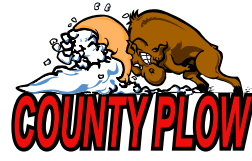

10 MOOSE ATV 3000 WINCH WITH WIRELESS REMOTE
Includes wireless remote (works up to 150ft. away). Handlebar mounted toggle switch. Heavy-duty sealed switching relay. 1.1HP motor. 3,000 lbs. Pulling cap (single line @ 1st wrap). 3/16"X50' of wire rope. mechanical & dynamic braking. Free spooling clutch color coded wiring for easy installation.
