- Passenger visor vanity mirror
- Front bucket seats
- Driver, front armrest
- 8-way driver seat
- 4-way front passenger seat
- Rear 60-40 split-bench seats
- Washable cloth seats
- Vinyl/rubber floor
- Air conditioning
- Cabin Air filter
- AM/FM stereo; Single in-dash mounted CD w/MP3 capability
- 6 speakers
- Power door locks
- 12V DC power outlet
- Tachometer
- Engine temperature gauge
- Voltmeter gauge
- In-dash clock
- Tilt steering wheel
- Power front windows

INTRODUCING THE ALL-NEW TOYOTA FJ CRUISER

The all-new FJ Cruiser is the latest in a long line of celebrated off-road vehicles from Toyota. And in the tradition of the legendary Land Cruiser family, the FJ Cruiser is not only engineered to conquer anything Mother Nature has to offer, but keep coming back for more.

IN AN FJ WORLD, THERE ARE NO BOUNDARIES

INTERIOR THE INSIDE STORY

If there's any doubt whatsoever that the FJ Cruiser wasn't built with functionality in mind, two seconds behind the wheel will put that thought to rest. Every interior feature has been designed for an active, outdoor lifestyle that embraces ruggedness, comfort, and easy maintenance.

Even the sound system is a revelation. All packages feature an unprecedented innovation in sound design. As well as having speakers in the instrument panel and door, highrange speakers have been integrated into the headliner to immerse you and your passengers in a virtual "sound shower".

FJ Cruisers include water-repellent seating materials. Seats are covered with a fabric backed by a special breathable resin coating to enhance the material's ability to shed liquids, and stitched seams are treated with sealant so that seats can be easily wiped down and cleaned.

FJ CRUISER INTERIOR FEATURES:

- The dark interior colour schemes not only look great, they hide dirt too
- Water repellent seat covers are amazingly easy to clean
- Horizontal pipes accent the sporty instrument panel that's designed for maximum ease of use
- Resin-type flooring makes clean-up almost enjoyable

- The driver and front seat passenger have legroom and headroom to spare
- Large, easy-to-operate door handles and heater controls
- The centre audio and climate control console is colour-keyed to match the outside body colour

ENGINE THE ROAD LESS TRAVELLED JUST MET ITS MATCH

The FJ Cruiser, like any Toyota Truck, can effortlessly deliver a smooth, comfortable ride on city roads or highways, but once the FJ Cruiser is off the beaten track it's in its element. Much of its superlative performance is largely due to a powerful 4.0 Litre V6 engine with dual overhead cams, Variable Valve Timing with intelligence (VVT-i) and sequential electronic fuel injection that produces 239 hp at 5200 rpm. After all, it was engineered to tackle frozen tundra, equatorial jungles and everything else in between. A little excursion to your favourite wilderness destination is just a walk in the park for the FJ Cruiser.

SPECIFICATIONS:

- There's a choice of two transmissions: a 6-speed manual with overdrive that operates in full-time 4WD or a 5-speed automatic Super Electronically Controlled Transmission (Super ECT) with overdrive, a gate-type shifter and lock-up torque converter that delivers part-time 4WD

- The inspiration for the FJ Cruiser's specially modified drivetrain, chassis, power steering and rugged suspension system came from another Toyota success story, the remarkable Toyota Tacoma
- The FJ Cruiser's powerful 4.0 Litre V6 engine puts out 278 lb.ft. at 3800 rpm, has an impressive towing capacity of 2268 kg (5000 lbs) and a payload of 601 kg (1325 lbs)

SAFETY FEATURES YOUR PEACE OF MIND IS TOP OF MIND

Our first concern always has been and always will be your safety. So it shouldn't come as any surprise that every FJ Cruiser is loaded with features to make your on-road and off-road driving experience as safe and worry-free as possible.

- Standard Antilock Braking System (ABS) with Electronic Brake force Distribution
- (EBD) and Brake Assist (BA)
- Standard Vehicle Stability Control (VSC) and Traction Control (TRAC)
- Standard dual stage airbags for driver and front passenger
- 12.6-in. front ventilated disc brakes and 12.3-in. rear ventilated disc brakes
- Safety options include: Active Traction Control System (ATRAC), Clearance and back-up sensor, front and rear head/side curtain airbags

THE ALL-NEW TOYOTA FJ CRUISER

Toyota has introduced the all-new FJ Cruiser sport utility vehicle (SUV). The vehicle was created to give customers the freedom to go anywhere and do anything. The overwhelmingly positive response to the FJ Cruiser concept, developed two years ago, prompted Toyota to launch a production version of the SUV. The all-new production model retains much of the design details of the original concept.

Chiseled from nearly a half-century tradition of tough off-road performance provided by the legendary FJ 40, the original 4Runner, and 4x4 compact pickups, the FJ Cruiser was developed as a basic, capable and affordable off-roader aimed specifically at young buyers with active outdoor lifestyles. The FJ Cruiser takes on an authentic functional form, yet adopts several styling cues from the original FJ 40. Some of these cues are notable on the front end by its wide grille with "Toyota" logo badging, round headlights, and off-set combination lamps.

Additional inspiration can be found through its upright windshield and white cap roof. Traits are also noticeable in the rear with wrapping rear corner windows. The modern shape of the FJ Cruiser is woven into a compact package set on a wide track, producing enhanced stability and a powerful stance.

Utility features include a two-part rear hatch with flip-up glass, black overfenders with mudguards, and silver painted bumper extenders, mirrors, door handles and skid plate. Easy rear passenger entry into the two-door SUV is achieved with rear access doors.

Power is supplied by a 4.0-liter V6 engine, generating 245 horsepower and 282 lb-ft. of torque. The engine is paired with a five-speed automatic transmission on both 4x2 and 4x4 configurations and an available six-speed manual on 4x4 models.

The five-passenger FJ Cruiser rides on a modified 4Runner platform and features 17-inch steel wheels and four-wheel disc brakes. Just like all of the SUV's in Toyota's line-up, the FJ Cruiser will be equipped with the STAR SAFETY SYSTEM™ which includes Vehicle Stability Control (VSC) and traction control (TRAC), an anti-lock brake system (ABS) with electronic brake-force distribution (EBD) and brake assist as standard. All 4x2 models will come with a standard automatic limited slip differential (ALSD).

The tough and straightforward theme of the FJ Cruiser is extended to the interior with a cabin designed specifically for basic functionality and flexible utility. The instrument panel features an exterior color trim, adding to its sophisticated, handcrafted appearance. The faceplate with round inset instrumentation communicates a mechanical appearance. The steering wheel and center-mounted shifter, and attached-look door panels feature toollike simplicity.

The rear seats fold flat, creating ample cargo space and maximum usability. The interior is equipped with an array of standard convenience features including air conditioning, AM/FM CD audio with six speakers, tilt steering wheel, four cupholders, passenger seat back pocket, and an upper dash-mounted map/glove box.

Additional optional equipment includes 17-inch aluminum alloy wheels, rear differential lock, electronic four-wheel traction control (on 4WD models only), running boards, rear sonar backup assist, front seat-mounted side airbags and front- and rear-side curtain airbags, daytime running lights, power outside mirror with image lights, cruise control, AM/FM CD audio with a six-disc changer, equalizer and eight speakers, leather-wrapped steering wheel with audio controls, multi-information display, exterior color door insert panels, privacy glass, and rear wiper.

Toyota is responding to the needs of a new generation of buyers with a modern interpretation of a Toyota classic, combining Toyota heritage with the safety and refinement requirements of today's market.

MEMO TO ANYONE WHO HAS EVER HEARD THE CALL OF THE WILD:

You owe it to yourself to take a moment and explore the all-new 2007 FJ Cruiser. Its lineage is impeccable, since it's the heir to the off-road throne that was occupied for a remarkable 24 years by its predecessor, the legendary Toyota Land Cruiser FJ40. Like its precursor and any Toyota Truck, quality, durability and reliability are all included – but the design enhancements, interior refinements, innovative touches, and tough-as-nails off-road capabilities are totally 21st century. As to where it can take you, there are no boundaries. You'll discover that legends don't die, they're reincarnated.
