# Designing Your Dream Space

JESSICA E. SANDERS  
DÉCOR CONSULTANT  
INTERIOR DESIGN

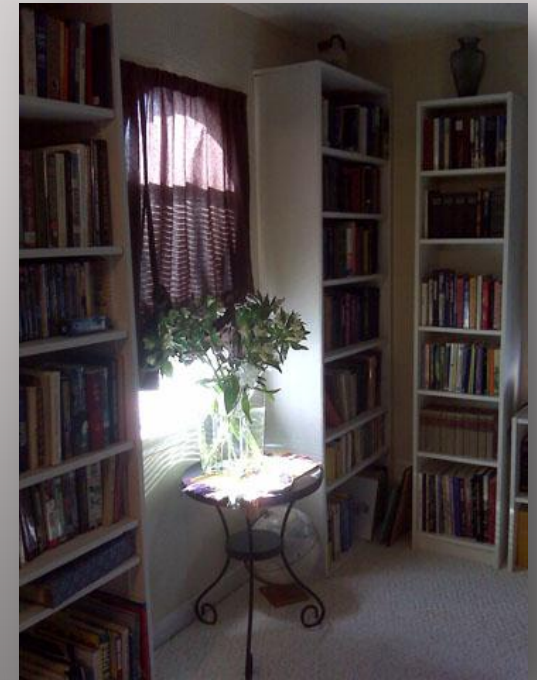

(832)510-4701

Recently studies have proven your environment (home or office) will affect your energy, productivity, pleasure and relaxation. Often a few simple changes can make a huge difference in how you enjoy your space.

The photos found here are of rooms I have personally designed. I specialize in the following design services offered for the entire home or office:

- |                |                   |
|----------------|-------------------|
| Space Planning | Furniture         |
| Color Palette  | Storage Solutions |
| Lighting       | Plumbing Fixtures |
| Textiles       |                   |

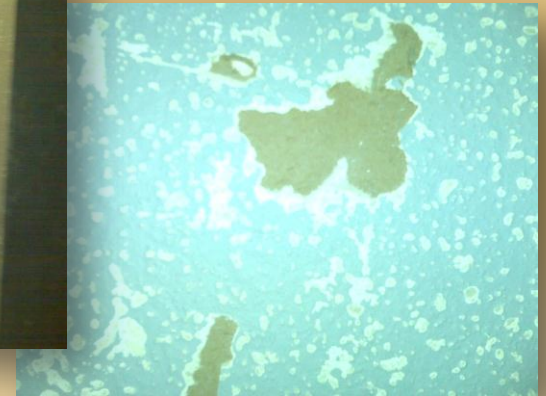

As your personal designer, I work with you to design and create a unique environment. Your personal taste and need for functionality will be highly valued and reflected in the design. My design experience will enhance the function and visual impact of space to improve your quality of life.
