What's Going On, And Going Up

AS THE CAMPUS continues its evolution, incorporating new buildings as old ones are retired or renovated, it's hard to keep up with all of the construction. This map depicts most of the major projects, with ongoing construction in yellow and recently completed buildings in green.

SCIENCE TEACHING AND LEARNING CENTER

Alumni will remember this building as "Old Chem," a 117-year-old structure undergoing a \$66.7 million renovation to house undergraduate lecture rooms and teaching labs. Opening in 2016.

SHRIRAM CENTER FOR BIOENGINEERING AND CHEMICAL ENGINEERING The fourth and final building of the university's science and engineering quad is a 208,000-square-foot facility that aims to bring together teaching and research faculty from science, engineering and medicine. Opening this fall.
