

# OVERNIGHTER: COLLAB DESIGN COMPETITION

The Collab Student Design Competition is a remarkable event held in conjunction with the Philadelphia Museum of Art. This particular year the competition was held in conjunction with the Museum's exhibition of Zaha Hadid.

Students will design an overnight bag that brings fun and function back to today's travelers. With the numerous size, shape, and weight restrictions in place today, the business or casual traveler is often at a loss for a well-designed piece of everyday luggage.

This project had also given us the opportunity to meet and collaborate with other students which were outside of our neighboring programs.
