

Hercules... The Innovator in Vehicle Washing Systems!

For more than 50 years, Hercules has been designing vehicle washing systems that continue to set the industry standard.

**HERCULES 6000
POWER BAR**

The Hercules patented brushless systems, when implemented into a dealership have proven to help:

- Enhance Profits
- Boost CSI
- Decrease labor
- ...and much more

**NEWEST ADDITION
TO OUR LINE:**

...THE HERCULES 6000

A high performance brushless system designed with our new Power Bar - a single traversing bar that cleans the vehicle in minutes!

THE FASTEST & SAFEST WAY TO INCREASE PROFITS

Hercules does much more than increase profitability. It also increases productivity. It's fast, safe and easy to operate. In five minutes or less, Hercules can wash and wax any vehicle—and apply a coat of Hi-Glo sealant. And with Hercules, there are no moving parts. So there's no damage to clear coat finishes. No swirl marks. No broken antennas or moldings.

POLISHING YOUR IMAGE, NOT JUST YOUR CARS.

No matter how well you service a car, the workmanship remains under the hood. Unseen and unnoticed. But the car is always visible. And recapturing that showroom brilliance will help keep your customers satisfied. Call Hercules today. We'll help make your dealership shine.

SPOT-FREE RINSE FREES UP EMPLOYEES

To eliminate hard water spots, Hercules developed a Reverse Osmosis System to produce a spot-free rinse. A final rinse of processed pure water allows cars to drip-dry spot-free. There's no need to towel dry.

FIT A CAR INTO A BAY? YOU CAN FIT HERCULES

Hercules requires a mere 12' x 20'. When the equipment isn't in use, the frame can be raised—giving you added floor space. And no other system in the world offers you the versatility of Hercules. It fits limousines, buses, trucks, recreational vehicles, and more.

ENVIRONMENTALLY SAFE & SOUND

Hercules developed an above-ground recycling system for areas where water use and disposal are restricted. This new reclamation system minimizes both the amount of water required and costs.

Call about the revolutionary Hercules Car Washing Systems today. It saves labor! Generates income! And enhances your CSI! What more could a car dealer want?
