### WHAT OTHERS ARE SAYING

"Ferron was waiting at the Hogs Creek boat ramp for us with the boat and all of the accessories. He was quick to get us going and his gear was in good shape. When we pulled off the water at Alameda Park and gave them a call from the payphone that they told us was there, Ferron came in 15 minutes and quickly picked us up. Great fun and very affordable!"

"Our group of nine rented a large paddle raft from Ferron's Fun Trips. Everyone had a blast! By far the best rafting experience our group has ever had. Wonderful service and quality rafts. I highly recommend Ferron's Fun Trips if you are looking for a rafting company."  
-Olivia T.

Ferron is a very nice and knowledgeable guide. Nobody had any availability for a one day ride except him in August so he saved us. He is a biologist and is knowledgeable about the history and the landscape. He did the whole tour for our family of 3 on his raft with extra canoe. The river was clean and mirror like in some spots and rapids in others. The water was warm enough to swim in. We even saw a black bear along the way.

We had a family gathering of 8 with 1 child under 6. We floated with Ferron what a pleasure it was. He is very knowledgeable about the river and of course a great guide. We felt safe and knew that if anything would happen we would be in good hands. The kayakers were a blast most everyone had a turn in either a single or double. They have this down to a science. From first contact to completion of the trip it was easy and everything their website said it would. Thanks Ferron and Sue!!!!

We took an afternoon trip during spring break. I was a little hesitant (chicken) to go rafting, but Ferron provided a fun and safe trip. We traveled with 2 teenage boys and Ferron suggested they try the inflatable kayakers for a little more excitement. Great idea! The boys had so much fun, even experiencing a tumble into the river at one point. But we never worried for their safety. Ferron knows that river like the back of his hand, and his stories were very engaging. Thanks for a lovely time, Ferron and Sue. I'm sure we will be back again.

### DID YOU KNOW:

The Illinois River flows into the Rogue River in Josephine county. The Illinois River acquired its name from the gold miners in the 1860s who explored this area in search for gold. Feeling homesick, the miners named the river after their home state of Illinois. Several tons of 24 karot gold have been extracted from the Rogue and Illinois River watersheds.

Special promotions offered for 2017 include a 15% off the purchase price of a guided river fishing trip on the Rogue for the month of Augst. This is a limited time offer that ends April 15th (tax day). Call for more details.
