

Stunning pattern from mesh in background

Rusty mesh provides colour

Paperclips give a great pattern from repetition

Fairy lights look like they are lit up

Industrial Elegance

Top View

Steel space frame minimises weight and materials

Sheet metal forms structure for mesh and fairy light assembly

Human Scale

Side View

Mesh is broken into 3 parts for aesthetics

Candle lit - ambient lighting

By

Oztali Designs

Industrial Ambience

Bracket securely holds plates in place

Candles provide ambient light while saving electricity

Holes let the light shine through

Steel for an industrious look and feel

Can be flipped over for a dimmer shine and lower feel

Concept Generation
