

Your Connection to Improved Profits

What can iSqFt do for you?

The iSqFt network connects hundreds of thousands of construction professionals—project owners, architects, general contractors, subcontractors, suppliers and manufacturers—and streamlines the entire building process so you can thrive and grow your business.

GENERAL CONTRACTORS

Discover how you can streamline your preconstruction workflow, from invitations to bid and document distribution up through bid day. Designed for general contractors of all sizes and specialties, iSqFt provides the tools you need to make your entire bid process more efficient.

- Quickly distribute project plans, specs and addenda
- Save time and money for your staff and bidders, allowing you to foster better relationships and get more competitive bids
- Control who gets access to each project and track their activity
- Find additional bidders who are looking for more opportunities

SUBCONTRACTORS

With iSqFt's online plan room, you'll find a comprehensive database of commercial construction leads in your area, complete with documents, saving you time and money and more opportunities to bid and win more work.

- Promote your business to general contractors at the moment they're soliciting bids
- Download or print drawings and specs right from your computer with free, unlimited access
- Know who to contact with a complete bidders list
- Track the status of projects throughout the bid process, 24/7

THE INTERNET PLAN ROOM WITH AUTO SEARCH

Add the Auto Search feature to the Internet Plan Room and automate the process of finding just the right jobs each day, with an advanced search that delivers jobs that match the keywords you've chosen. The result is quicker access to projects that are most relevant to what you do and most meaningful to your business.
