EDUCATION

There is a 1 year gap in between my 1st and 2nd year studies at University. This is because I unfortunately could not be postponed until the summer required time off for medical reasons which

EMPLOYMENT

FEBRUARY 2006 MERSEY TELEVISION STUDIOS, LIVERPOOL
 Completed 1 week's work experience, gaining an insight into publicity, editing, dubbing, photo shoots, IT support, design & props and technical support. This included a session of basic editing and dubbing, telephoning magazine companies chasing recent publicity and aiding on set at a photo shoot promoting new cast members.

SEPTEMBER 2007 – AUGUST 2008
 Worked as a sales assistant, where my duties included stock taking, putting out new stock (including alcohol and cigarettes), stock rotation, working as a cashier, helping customers to find what they needed, newspapers, lottery and cleaning. Responsibility in dealing with cash and high value items such as alcohol and cigarettes were needed, as well as a good manner of dealing with customers.

JULY 2009 - PRESENT (PART TIME, WHEN AT HOME)
 Working at this high-end pub/restaurant as a waitress and bar maid. Here I was expected to learn quickly and to a very high standard how to wait on and work on the bar to meet the reputation of the establishment. Great responsibility was soon given to me in the form of working on my own, cashing up and locking up the restaurant and bar. I was also given charge of organising the Christmas deposits and telephoning all booked customers who had not yet paid them. I also helped to organise the Christmas decorations, and to organise a collection of old mobile phones for charity.
