MM Consulting Group

HOME ABOUT US PROJECTS SERVICES CONTACT US

Who we are

MM Associates bridges the gap between social scientists and projects from their area of expertise and thereby maximizes the benefits of collaborative between experts. We determine the feasibility of proposed development and educational projects and deliver optimal strategy plans and methods for achieving targets.

As a development consulting company we help governments, businesses, civil society groups, and communities in order to bring about a *meaningful, constructive and sustainable* change by offering management, technical, research, and training services specially in private sector development, environmental management, education, gender, democracy and governance. We aim to improve non-governmental and community-based organizations' performance and facilitate capacity building by providing organizations with effective and sustainable approaches to human development, social policy and resource management.

TkXel Technology Accelerated

"Exploring new
Technological Horizons"

Home | Virtual Teaming | Product Development | Venture Engineering | Technology | Showcase

Contact Us

At TkXel we are in the habit of playing with technology. This is partly a result of our skilled engineers' intrinsic motivation to explore and get expertise in cutting edge technologies and partly because of our working experience with high tech startups which require nothing but the latest and the very best.

- Mobiles (Iphone , Android, J2ME, Winmobile)
- RIA (Flex, openlaszlo , silverlight)
- Web frameworks (ROR, Python Django, CakePHP)
- Mainstream (J2EE , .NET)

2008 TkXel Technology Accelerated

TkXel Technology Accelerated

"It's all about
the team effort"

Home | Virtual Teaming | Product Development | Venture Engineering | Technology | Showcase

Contact Us

Our Virtual Team concept concept allows technology companies, high tech software based startups and IT departments to expand their software engineering work force by hiring a team of skilled, dedicated and intrinsically motivated professionals across geographical and organizational boundaries.

- **Your IT Team** - just sitting remotely
- Specialized processes to work with onsite teams
- Complete online project management facility
- No Time zone barriers
- Cost effective solutions to your HR worries
