

The World's Most-Awarded Visual Strategy Game

OMNESIA TOY PORTFOLIO PLATINUM AWARD
Dr. Toy's Best Wooden Product

Blokus has won numerous awards, including Game of the Year awards in Europe and Japan. Players take turns placing as many of their 21 geometric shapes on the board as they can, but only the corners of their own pieces can touch. The real challenge comes at the end of the game, when pieces squeeze into increasingly limited space. Easy to learn, with fast play that engages kids completely. 12" x 12" board, 84 playing pieces. 2 to 4 players.

Our Best-Selling Mazes

They're our most popular maze books, and we think it's because every nook and cranny has great facts and key events. In Magnificent Mazes, kids help historical characters find their way back to the proper era and location; the brand new Magnificent Mazes 20th Century has Marie Curie, Gandhi, Einstein and seven others lost in space and time. 28 pages each.
