“Uwharrie Builders has been a strategic supplier and partner with Technimark. They are a very reliable and dependable company. I'd highly recommend them to anybody!”

~Don Wellington
Technimark, LLC

“I cannot speak highly enough about Uwharrie Builders. What they promised, they delivered on. Uwharrie built both our stores in Asheboro and Rock Hill. I couldn't be more pleased with the end result.”

~Robbie Cox
Cox's Harley-Davidson

“With over 30 convenience stores and restaurants that we operate, having a construction company we can count on is very important. Uwharrie Builders has done everything for us, from minor building maintenance to construction of a 9 acre, 10,000 square foot truck stop, and they have exceeded our expectations every time.”

John J. Orow

What WE DO

Uwharrie Builders is a full service general contractor specializing in industrial and commercial construction. Our emphasis is on design/build projects - including commercial, metal building, building additions, and maintenance.

Uwharrie Builders maintains an unlimited license in North and South Carolina.

We're committed to meeting all the needs of our customers during all phases of their project from start to finish...and beyond.

Who WE ARE

Founded in Troy NC, Uwharrie Builders was established in November 2002. Since that time, Uwharrie Builders has successfully produced many projects in industrial and commercial construction.

We're a team committed to your project's success.

Our staff has a combined experience of over 75 years. From master planning and site layout to preliminary construction and budgeting, we strive to get the job done *on time and on budget*.

Uwharrie Builders provides pre-construction, scheduling, project administration and related services to clients in North and South Carolina.

WE SPECIALIZE IN -

- Manufacturing Facilities
- Churches
- Banks
- Retail
- Convenience Stores
- Medical Offices
- Veterinary Facilities
- Warehouse Facilities

THE Uwharrie DIFFERENCE

Design/Build sets us apart from all the rest. *Design/Build allows fast tracking of the construction process, better cost control and improved construction management.* It also allows quicker recovery on capital expenditures and supports a non-adversarial relationship due to having a single source contract.

Design/Builders manage every aspect of a project from start to finish. *The idea of one accountable expert is appealing because it keeps your project free of "interpretations" as it moves from design to construction.* Should problems arise, sole accountability prevents your project from being bogged down.

With Design/Build you are likely to save one or two months in completion of a project. *The best construction value, most sensible materials, and methods are all designed into the project.* The result is a clearly defined project with a realistic budget, little or no change orders, and the most effective design program from the start.
