Portland, Oregon 97232

To whom it may concern,

I am excited to hear about your interest in fresh designers. As a progressing designer (and athlete) I'm very passionate when it comes to products being aesthetically compelling and extremely functional. I'm also enthusiastic about products, not just for their usability, but for their sense of versatility and simplicity, as well as their emotional connection to a user.

I recently graduated from the Industrial Design program at the Art Institute of Portland, and feel my education, determined approach, and attention to detail, might make me an ideal candidate for your design team.

Many of my projects included working as part of a team to create innovative solutions to design problems (on a deadline). I would welcome the opportunity to discuss things in more detail. My portfolio is available to send/view asap. Please let me know if I can provide you with any other information or references, I look forward to hearing from you.

Sincerely,

Robert H. Ferguson
