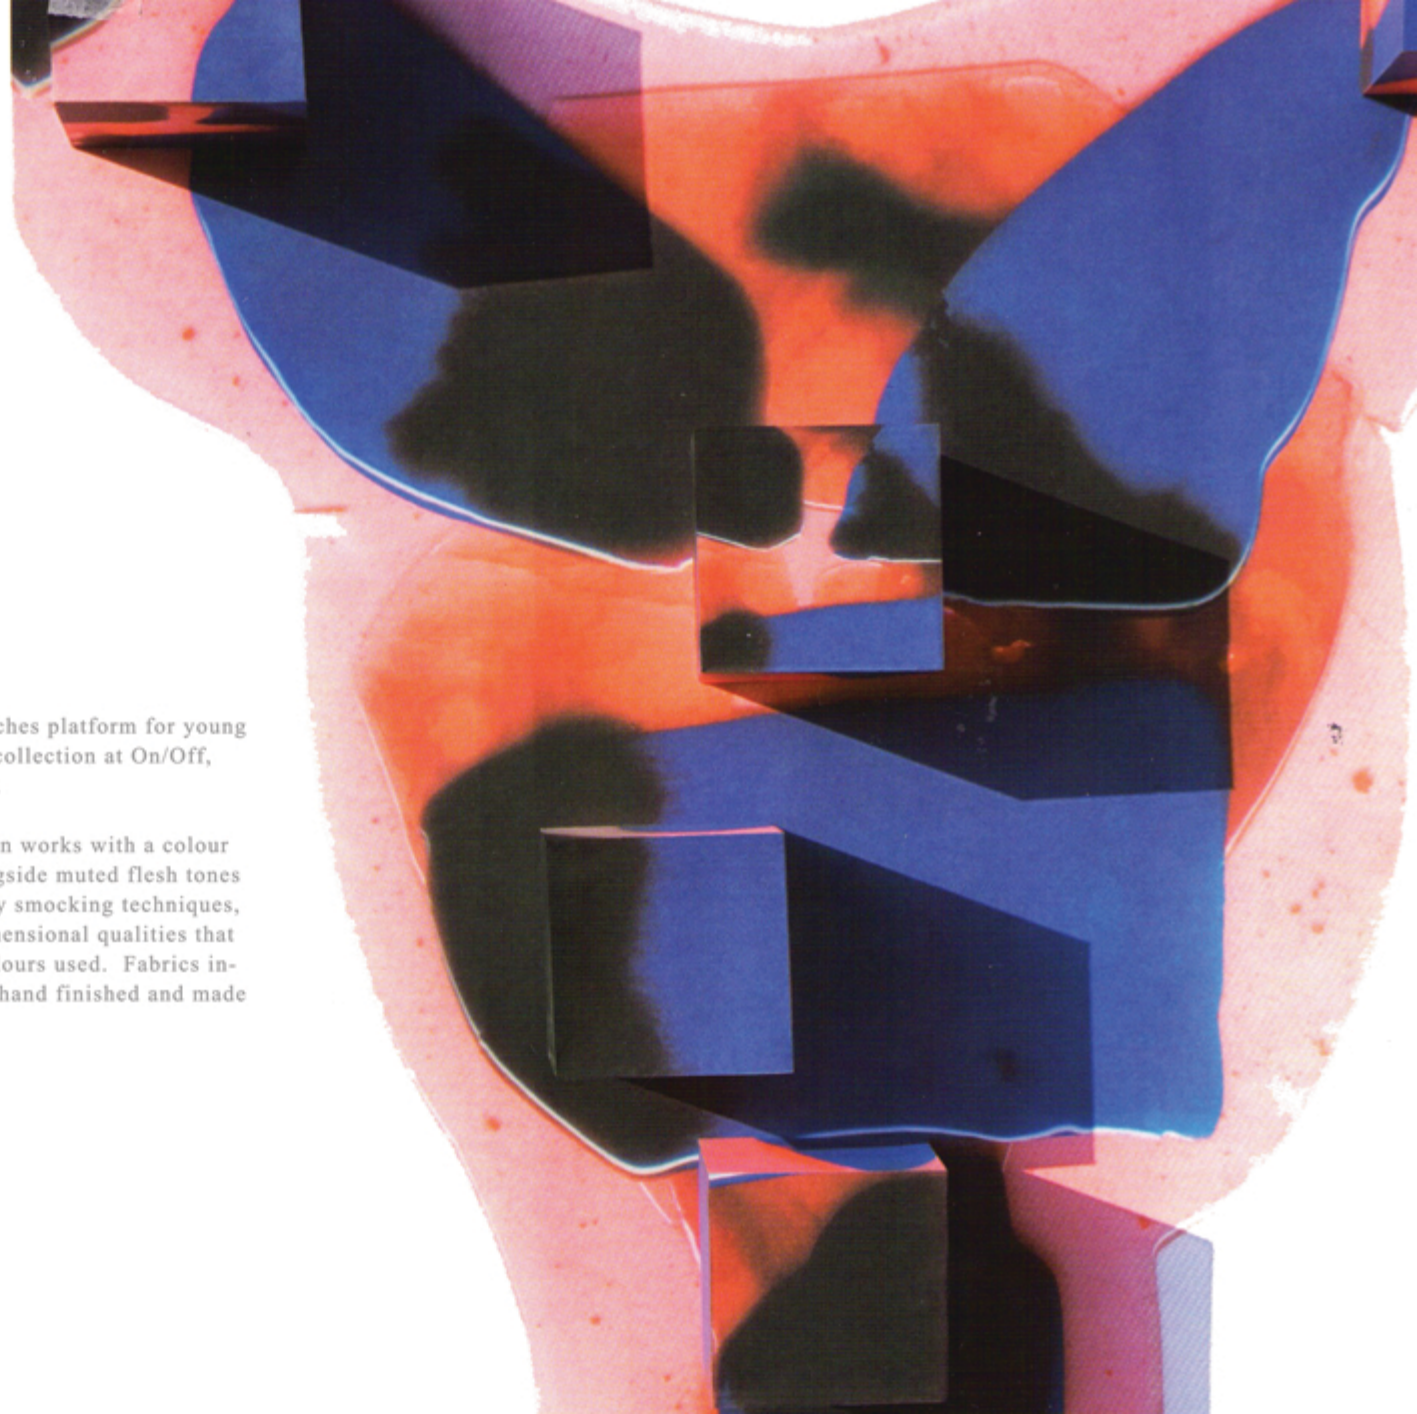
Nicole Murray

Spring Summer 2010

Nicole Murray, recipient of the Harrods Launches platform for young talent, launched her Spring Summer 2011 collection at On/Off, London Fashion Week.


Inspiration for the Spring Summer collection works with a colour palette of soft bronzes and burnt orange alongside muted flesh tones and dark peaches, navy and blush. Inspired by smocking techniques, the work is textural with depth and three dimensional qualities that only enhance the natural tones of the rich colours used. Fabrics include 100% silk, wool and leather and are all hand finished and made in England.
