Autumn Winter 2011...

German artist Hans Bellmer was the inspiration behind the Autumn Winter collection, focusing exclusively on his line drawings created during the 1940's, a period that is key to the aesthetic sensibilities of my work. The collection encompasses the intriguing cutting techniques that are a signature style of the label.

AW2011 is based on a colour palette of heather, amethyst and rosewood alongside deeper tones of bronze and chestnut. A key element to this season's collection is the use of leather detailing as a contrast against the fluidity of the fabric. Fabrics are all 100% silk, wool and leather and are all made in England.
