

ABOUT ME, MY PASSION

I am a self learnt, highly passionate artist, and I live for concept art and illustration.

It's my dream to contribute to the finest movies of the day.

What I lack in experience, I make up for it in my passion and dedication for the medium and a very keen eye for detail. I learnt everything I know from keen observation of nature, trying to emulate it on paper.

I am looking for an opportunity as a full time concept artist in animation and movie industry.
