

Join our mission to buy local, organic, and sustainable!

We are proud to provide our customers with goods and products crafted and grown in our region, and we celebrate the wide range of outstanding products available to us through our local entrepreneurs.

Along the thousands of miles from food to fork, perishable food loses its nutritional value and freshness, and its journey burns fossil fuel and contributes to global warming.

In the Bay Area we are fortunate to be surrounded by a diversity of outstanding local produce, grass-fed beef, pastured poultry and eggs, and a wide variety of farmstead cheeses.

We've collected a list of farmers, ranchers, manufacturers and local artisans who contribute to the Bay Area's local food shed. You and your family can take pride in eating locally and creating community with each meal!
