

*My name is Tony Bremner, I am a student here at ITT-Tech, I am going for*

*Graphic Communication and design.*

while attending to ITT-Tech I have improve my skills in technical, I have gain more experience in today's software ,also how to use them in my personal life, also my written communication skill has improve with the work I have done in classes also working in groups in class, also some design skills that will help me on my classes that I will take at ITT .While going to ITT I am working at a recycling company. I am a problem solver and communicate well with people. I have some experience in printing and graphic design, I had the opportunity to work in a printing company and gain some experience to see how the production works. My interests is photography I will be working on to gain some training in this field in coming months. I am a good person with a good attitude about things in life, My outlook on things are sometimes good even when things are bad, sometimes bad things become good . My goals is to get in to a graphic design field also love a job that I can enjoy. My abilities are that I can be a leader also good with people
