

{User}

After analyzing my survey data, I came to the conclusion that the majority of the users for my space will be people between 25-34 years old, and visit public spaces on an average of two to three times per week. They can be broken down into three demographics.

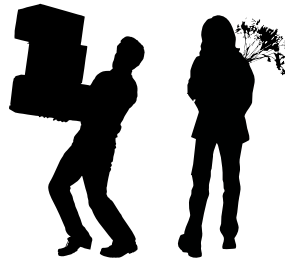

Commuters

People who work in the downtown area, and want to get out of the office for lunch.

Families

Parents with their children who come into the city for events and want a nice place to relax with the kids.

Merchants

People such as, local urban farmers, local artists, and local business owners.
