

Since opening in 1953, the North Museum has been Lancaster's destination for inspiration, discovery, and exploration of nature, science, and cultures.

The North Museum is accredited by the American Alliance of Museums, a recognition of excellence awarded to only 38 museums in Pennsylvania.

**Help keep the spark of exploration and discovery alive.**

**With your contribution, the North Museum will:**

- Immerse more than 35,000 visitors each year in nature, science, and cultures through educational exhibits, collections, and programs
- Captivate visitors on a voyage to the outer edges of the universe in Central PA's largest digital planetarium, the SciDome Theater
- Provide engaging outreach programs to more than 5,500 local students
- Deliver programs like STEM\* Sisters and the North Museum Science & Engineering Fair at no cost to students or schools
- Make science fun and accessible through events like "Bees, Bugs, & Butterflies," "STEAM Carnivale," and "Sweet Science"

*"I strongly believe there are still not enough women in my field. Through the North Museum STEM Sisters program, I want to help the young girls see that anything is possible and that math and science can actually be a lot of fun."*

—Kim Ireland, MSIS, CEO of MedStatix, and STEM Sisters Professional Role Model

Please tear at perforated fold and moisten to seal envelope.

*"I am a firm believer that students should have a wide range of experiences in education so they can grow to their full potential. The North Museum provides such experiences not just within collections, exhibits and a planetarium dome, but with outreach science programs such as the science fair."*

—Dr. Daniel G. Daneker, Subject Area Supervisor for Science and Technology Education, Conestoga Valley School District

**Three easy ways to support science education at the North Museum:**

- Return this envelope to pay by check or credit card
- Donate online at [northmuseum.org](http://northmuseum.org)
- Speak with a Museum representative at 717.358.4043
