

## WELCOME

**Thank you** for the opportunity to present our concepts for your corporate offices.

This document will outline our thought process, strategy for your office layout, design direction and overall concept.

Our design has grown from **your brief**, which we understand to be:

To **design** a **new office space** over **two** floors (6 & 7) of **Tameem House** in the TECOM area of Dubai. We are to accommodate facilities for **120 staff** of various categories including the **CEO, Department Heads** with all necessary office requirements and furnishings.

With this in mind we will now present our design direction. **Please** also refer to the supplied **design direction document**.
