To Whom It May Concern,

I am currently a junior in East Carolina University's Art and Design School. My goal after college is to work for a design firm doing brand identity work. I have taken classes in the graphic arts focusing on typography, use of design software, page layout techniques, basic design principles, as well as the industry of graphic design. Going to summer programs at Savannah College of Art and Design and the NC State Design School helped me develop my love for art and I am excited to learn as well as mature my skills as a designer!

Best Regards,  
Kelsey Kline

BFA Candidate — Graphic Design  
East Carolina University
