

OBJECTIVE:

Design a sophisticated 3-bedroom apartment located in downtown Ithaca, New York for a first-year student at Cornell University.

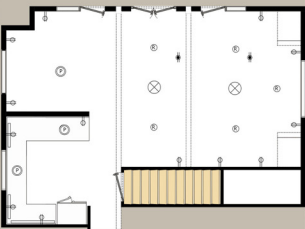

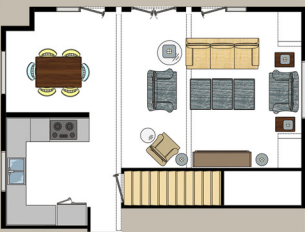

FLOOR PLAN-NTS

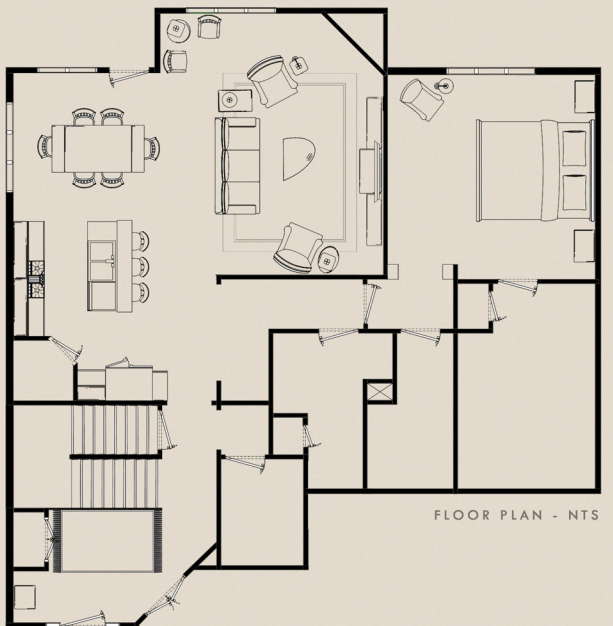

A neutral color palette with varied textures creates a simplistic, sophisticated atmosphere for the client. The third bedroom was converted into an office/work space with custom-built cabinets, and the walk-in closet was upgraded with shelving and extra storage.

OBJECTIVE:

Create a lighting plan for a newly constructed house in Ovid, New York. Must take into consideration overhead beams and sloped ceiling. Under-cabinet and task lighting is desired.

- ⊙ Recessed Lighting
- ⊕ Pendant Lighting
- ⊖ Wall-mount Outlets
- ⊖ Floor-mount Outlets
- Under-cabinet Lighting

FLOOR PLAN - NTS

This newly constructed home in Ithaca, New York was the first project I was able to see through from start to finish. From on-site measuring to space planning and fabric selection, all of my design skills and knowledge were truly utilized.
