

**OUR BABY JUST KEEPS
ON GETTING BIGGER.**

Twenty years ago, we conceived the first-ever ETF – the SPY500. Today, it's the world's largest and most actively-traded ETF with \$81 billion in assets and 77 million shares traded daily. And we've nurtured our spirit of innovation too, with a global family of ETFs currently standing at 170.

Precise in a world that isn't.

SPDR ETFs is the exchange traded fund ("ETF") platform of State Street Global Advisors and is comprised of funds that have been authorised by European regulatory authorities as open-ended UCITS investment companies. **ETFs trade like stocks, are subject to investment risk and will fluctuate in market value. The value of the investment can go down as well as up and the return upon the investment will therefore be variable. Changes in exchange rates may have an adverse effect on the value, price or income of an investment.** Further, there is no guarantee an ETF will achieve its investment objective. SPDR ETFs may not be available or suitable for you. This advertisement does not constitute investment advice or an offer or solicitation to purchase shares of SPDR ETFs and has been issued by State Street Global Advisors ("SSgA"). SPDR ETFs may be offered and sold only in those jurisdictions where authorised, in compliance with applicable regulations. You should obtain and read a prospectus and simplified prospectus relating to the SPDR ETFs prior to investing. Further information and the prospectus/simplified prospectus describing the characteristics, costs and risks of SPDR ETFs are available for residents of countries where SPDR ETFs are authorised for sale, at www.spdrseurope.com and from your local SSgA office.
