Body Treatments

Weight Loss:

We can customize a program for you! Whether you want to lose 25 pounds or more, or just rid yourself of those last few stubborn pounds, let us know! We can customize a program just for you, and we'll get you to your goal quickly and easily.

Targeted Inch Loss:

We utilize laser-like lipo for quick inch loss. Depending on how many areas of the body you want to address with each session, we offer an 8 paddle or a 16 paddle option. Most people lose approximately ½ inch per session, or a pant size after 9 sessions.

Body Wraps

Thermojet

Our Thermojet uses Infrared Energy to penetrate into the core of the body to stimulate the lymphatic system and give you a great metabolism booster. Most clients burn 900 – 1200 calories in only 45 minutes! This is a warm wrap in which you are clothed. Plan on sweating lightly.

M'Lis

The M'Lis Wrap is a Niacin cream-based wrap to help with body contouring and detoxification. The cream is applied directly onto the skin and you are wrapped in cellophane, assisted into a warm bed, and you relax for an hour.

Bioslim

The Bioslim Wrap employs powerful essential oils to help diminish the appearance of cellulite. This is a four-step wrap with each step layered directly on the skin and then you are wrapped in cellophane. Please allow 45 minutes to complete this wrap.

Venus Legacy:

The Venus Legacy uses the power of radio frequency and pulsed magnetics to tighten and tone skin as well as stimulate collagen regrowth. This great option tightens skin after weight loss or pregnancy. It is fantastic for fighting the signs of aging: diminishing fine lines around the eyes and mouth, darkness around the eyes, and tightening loose skin in the neck. It has been clinically proven to diminish the look of cellulite. A series of treatments are recommended for best results.

Facial Treatments

Anti-Aging:

We offer a variety of medical grade chemical peels. Tailored to your unique needs, we can customize a program for you. We have several different options ranging from no down time to a few days of peeling to reveal a brighter, more even skin texture. A peel combined with our Medical Grade Skin Care is an anti-aging must!

Pigmentation:

Did you know age spots and hyperpigmentation are the number one indicators of age? Our medical grade Pigmentation Peel helps even out those dark spots. Working on par with lasertherapy used in expensive plastic surgeons' offices, the peels also have been shown more effective in keeping the spots gone. A peel combined with our Medical Grade Skin Care maximizes your results!

Acne Scarring/Active Acne:

We have a customized facial for treating acne lesions utilizing our cold laser therapy. Keep flare ups at bay by combining services with our Medical Grade Skin Care for home use. Scarring from previous bouts of acne can be effectively addressed with our Acne Peel combined with microdermabrasion to reveal smoother, more beautiful skin!

Eye-Brightening Treatments:

Our Venus Legacy Eye Treatments effectively treat bags under the eyes, wrinkles and droopy lids. Combine services with our Medical Grade Skin Care line for even more fantastic results!

Reveal your beautiful skin

INSIDE SPREAD

OUR SERVICES (continued)

Advanced Biostructural Correction:

Think of this as chiropractic for beauty. This specialty technique improves posture, improves breathing for better circulation and makes your body more symmetrical. It sounds unbelievable, but ask for a complimentary demonstration and you will see changes immediately.

Digestive Enzyme Analysis:

Did you know the signs of poor digestion are:

- Stiff/sore joints
- Headache
- Heartburn
- Indigestion
- Gas pain—bloating
- Constipation—Diarrhea
- Anxiety—Irritability
- Restlessness
- Insomnia

These are the symptoms that your body is not getting the energy it needs from the food you are eating. Often all-natural, plant-based enzymes are the answer to getting rid of your symptoms! Schedule a quick exam to find out how they could help you!
