

THE ROTH HOUSE

Located at the corner of South Main Street and Sunset Boulevard in Blacksburg, Virginia, the Roth House is home to a business owning family of three. The building is composed of two structures: a house, and a music store, where the Roths sell wooden stringed instruments. The Roth House brings together the family's home and business lives, but also allows for privacy when desired. The building's square footage is approximately 3,500 square feet.
