John Kasich voted to give China permanent “Most Favored Nation” status. The Result: Ohio lost 91,800 jobs.¹

With a record like this imagine, what he’ll do as Governor.

Kasich has a long record of supporting tax loopholes that encourage corporations to ship jobs overseas.

He bowed to Wall Street by voting to give China permanent “Most Favored Nation” status, costing Ohio 91,800 jobs.²

**John Kasich:
Good for China. Bad for Ohio.**

GOVERNOR TED STRICKLAND

is working to create — and keep — good jobs right here in Ohio.

- Strickland believes outsourcing is wrong.³
- Strickland opposes unfair trade deals that hurt working families.⁴
- Strickland invests in alternative energy for jobs here in Ohio.⁵

The choice is clear. Ted Strickland stands with Ohio’s working families.

Early voting begins **September 28th.**
