BE THE SOLUTION NOT THE POLLUTION

If you take action now to help eliminate pollution. Keep your cell phones, computers, and other electronics as long as possible. Donate or recycle them responsibly when the time comes. Electronics waste contains mercury and other toxics as it's a growing environmental problem. Green may be the new black, but U.S. consumers are not recycling old electronic gadgets despite promises by multiple organizations for hassle-free ways to get rid of electronic waste. If you take action now to help eliminate pollution. Keep your cell phones, computers, and other electronics as long as possible. Donate or recycle them responsibly when the time comes. Electronics waste contains mercury and other toxics as it's a growing environmental problem.
