- Battery Component 3
- Power Cells 4
- LED PCB 5
- Amber Lenses 6
- PCB Button 7
- Lower Finger Grip 8

Compact Design Characteristics.

A series of 5 components are lightly packed into this unique shape which would appear to be a normal handle grip to an ordinary person. The handle flash has a simple yet sleek exterior which is tightly fasten to the cycle. The characteristics enable a user friendly design when replacing power cells.
