

REMEMBER HOW YOU SAVED MONEY AS A KID.. 4 EASY STEPS

1. Save money by not spending half of your allowance. For example, a student like you have allowance every week, control your spending and recycle old things to make a new one. In this, you can save money and be an environmentalist.

2. Do chores and ask for coins in exchange. For example, you'll volunteer to wash dishes on weekends, ask your parents for coins in exchange after doing your chore.

3. Buy a diary. This will be your spending diary. In one page, you'll write your spending in a week and count them all. Having a spending diary is great because you'll be aware to cut your spending when it is too much.

4. Ask your neighbors if they need a babysitter, lawn mower, dog taker, and other things you can do in exchange of money.
