

Unioil

4T SOLO SF 40

MOTORCYCLE OIL

MONOGRADE

1L

4-STROKE

Unioil

4T SOLO SF 40

4-STROKE MOTORCYCLE OIL

APPLICATION

- Suitable for 4-stroke motorcycle engines with manual transmission where API SF or earlier specifications are recommended.

BENEFITS

- Provides enhanced protection against engine wear.
- Effectively cleans the engine.
- Prevents piston ring sticking.
- Prevents clutch slippage.
- Excellent friction control.
- Improved anti-foam performance.
- Improved oxidation stability to prolong oil service life.

HEALTH AND SAFETY

1. Avoid contact with eyes and prolonged or repeated contact with skin.
2. In case of skin or eye contact, immediately wash the affected body part with clean water and mild soap.
3. In case of accidental ingestion, immediately consult a doctor.
4. Keep out of reach of children.

STORAGE CONDITIONS

1. Store in a cool & dry place away from direct sunlight.
2. Flammable. Keep away from heat or open flame.

ENVIRONMENT

1. Help protect the environment. Dispose used oil properly.
2. Do not dispose used oil into public drainage, soil or water bodies.

Manufactured under strict compliance to ISO 14000 & 9001 standards.
Manufactured & distributed by: Unioil Petroleum Philippines, Incorporated
Rubbermaster Road, Barrio Lingunan, Valenzuela City

HI-PERFORMANCE 4-STROKE

MOTOSPORT 4T SJ 20W-50 MA HIGH PERFORMANCE 4-STROKE MOTORCYCLE OIL

APPLICATION

- Suitable for 4-stroke motorcycle engines with manual transmission where API SJ or earlier specifications are recommended.
- Meets API SJ, JASO MA specifications.

BENEFITS

- Provides superior protection against engine wear especially at high temperatures and severe operating conditions.
- Smoother gear shifting and prevents clutch slippage.
- Reduces noise & vibration for a smoother ride.
- Superior oxidation resistance.
- Improves overall engine cleanliness.
- Reduces sludge formation and engine deposits.
- Prolongs engine & gear life.
- Improved anti-foam performance.

HEALTH AND SAFETY

1. Avoid contact with eyes and prolonged or repeated contact with skin.
2. In case of skin or eye contact, immediately wash the affected body part with clean water and mild soap.
3. In case of accidental ingestion, immediately consult a doctor.
