Proudly Serving
Sausage Italiano

today...

Northern Lights Pizza Company operates 10 locations in Des Moines and Kansas City. We still only use the best ingredients around, from our Wisconsin Cheeses, homemade signature pizza crust and Bread Sticks, all natural pizza sauce and fresh vegetables. We will only serve your family a pizza that we would love to serve our own.

The owners of Northern Lights Pizza Company still continue to work in the day to day operations and see to it that the pizzas today are just as excellent as the first days of selling them door to door. It is even possible that one of them made the pizza you are loving right now.

"We invite you to try our awesome pizza and our legendary amazing breadsticks today. You will love every bite and tell all of your friends why they should try it too."

humble beginnings...

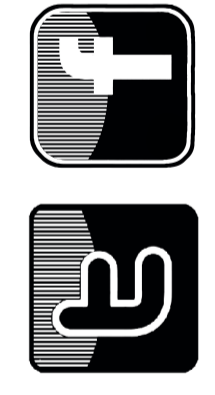

In 1994 two friends, one from Des Moines, Ia and one from Kansas City, Mo. took over a failed pizza joint in Clive, Ia. With \$3,000.00 borrowed from one of their parents they bought some flour, cheese, imported spices and other high quality ingredients and sold pizzas door to door. They worked night and day and after 2 years were able to save enough money to open a second location on the east side of Des Moines. They continued to work hard and put all profits back into the business and expanded to 6 locations across the Des Moines metro area. In January of 2006 they fulfilled their promise to go to Kansas City and opened the first of four locations in Kansas City on N. Oak Trwy.
