INTRODUCING THE KYLE COLLABORATION LAB

The Kyle Collaboration Lab, located on the ground floor of the Earl Gregg Swem Library, opens this Fall 2012 as a joint project between William & Mary Libraries and Academic Information Services. This lab serves to support teaching excellence and provide faculty the support to take risks, learn new technologies, and incorporate media and library collections in their teaching and coursework. Drop in or schedule an appointment with a librarian or technology specialist. Make requests for support to *kylecollab@wm.edu*.

JUST A GLANCE

5 Mac workstations
- Analog to digital conversion options (audio, video, document, and slide scanning)
- Media playback (BluRay, VHS)
- Projections from a laptop or workstation

Microsoft Office | Adobe Creative Suite | Adobe Premiere Pro | Apple iWork | Apple GarageBand | iMovie | and more!

HOURS

Drop In
Monday - Thursday   Friday
8 am - 12 am   8 am - 7 pm

Brown Bag Series
Selected Tuesdays - Thursday
11:30 am- 1 pm

Workshops
Selected days
3 pm - 5 pm

BROWN BAG SERIES

Our workshops will take place in the Kyle Collaboration Lab on the ground floor of Swem, unless otherwise indicated. Classes will last from 12 - 1 pm, but we encourage you to arrive early, bring your lunch, and enjoy meeting colleagues.

Class Schedule

Tuesdays: Learn about exciting collections and services.

Wednesdays: Explore complex issues in the academy including open access and copyright.

Thursdays: Discover new tools, technologies, and services to support your teaching and research.

See the reverse side for the complete Fall 2012 Semester workshop schedule. Seating is limited. RSVP for any session at *https://forms.wm.edu/6252* or attend online at *http://wm.adobeconnect.com/kyle*.

RICH MEDIA SERIES

Thirteen instructional faculty were given additional resources this past spring to implement a new media component to an existing course. Academic Information Services, Swem Library, and the Charles Center each contributed to the funding of grant awards. Stay tuned for a future call for proposals.

FEATURED RESOURCE **TUESDAYS**

October 30 - *Swem Video Databases Series:* Lynda.com
T. Davis
Explore the comprehensive training resource for technology and software.

November 6 - *Swem Video Databases Series:* American History in Video
D. Welsh
An in depth look at the "American History in Video" database which contains newsreels, archival footage, and important documentaries on people and events in American history.

November 13 - *Swem Video Databases Series:* Ethnographic Video On-line
M. Higgins
Come learn to use Ethnographic Video Online, a fantastic resource for the study of human culture and behavior: learn to create video clips and playlists to show in class or embed into Blackboard.

November 27 - *Swem Video Databases Series:* Films on Demand
T. Davis
This online resource contains a growing catalog of streaming video that can be incorporated into teaching. We'll explore how to find videos and explore some advanced functions.

HOT TOPICS IN THE ACADEMY **WEDNESDAYS**

November 7 - Open Education Resources
K. DeLaurenti
Having difficulty finding the perfect textbooks for your courses? Find out about open education resources that you can use to create your own perfect textbook while keeping student textbook costs down!

November 14 - Massive Open On-line Courses (MOOCs)
G. Roche
MOOCS are the hottest technology topic of the summer hundreds of thousands of student's registering for dozens of courses at Harvard, Stanford, Michigan, and other top universities. The session will look at many of these programs to see what challenges and opportunities these new courses offer traditional universities like William and Mary.

December 5 - Archives: Digital & Personal
A. Schindler, U. Schechter
How do we save all of our digital assets for the long term? This session will get you started with basic and practical solutions for caring for your personal digital archive including file formats and storage options.

SCHOLARSHIP & TEACHING **THURSDAYS**

November 8 - Research Management Tools, Pt. 1: Citation Managers
P. Showalter, K. DeLaurenti
Come to this session to learn about some popular and powerful tools for organizing all those citations you collect during your research. See RefWorks, Zotero, and Mendeley in action. Suggest your own alternatives, too!

November 15 - Research Management Tools, Pt. 2: Collecting & Organizing Info From the Internet
T. Davis, K. DeLaurenti, P. Showalter
Are you always coming across great information on the Internet and wishing that there was a way for you to store and organize it all? We can help! Come learn some useful and clever ways to not lose those web gems once you find them.
