

Quality spirulina

SPIRALYNE spirulina is premium quality spirulina. SPIRALYNE spirulina has naturally **more vitamins and minerals** than most other brands of spirulina. For more information please:

[Visit our Website](#)

"Spirulina is the most nutritious natural wholefood known. That's why space agencies like NASA and the ESA are looking into spirulina use for their astronauts."

Why Spiralyne spirulina?

99.5% pure spirulina

% Rest assured that SPIRALYNE spirulina tablets are 99.5% pure premium spirulina. The remaining 0.5% consists of a vegetable binding agent. Our spirulina tablets are suitable for vegetarians and are halal. We do not use any bulking agents or cellulose casings for our spirulina tablets. The cellulose casings are difficult to digest. Our spirulina tablets have no cellulose which means they are digested easily.

Individually packaged tablets

 Each spirulina tablet is packaged individually in blister trays to ensure that our spirulina is at its best. Spirulina oxidises and slowly loses some of its nutritional values when left exposed to oxygen. That's why it's important to have your spirulina tablets individually packaged so that you know you are receiving the full benefits of your spirulina tablets.

Higher vitamin content

 SPIRALYNE spirulina tablets naturally have high amounts of vitamins, minerals and phytonutrients. Because deep-sea mineral rich water is used in the cultivation process of SPIRALYNE spirulina naturally has more vitamins, minerals and phytonutrients than other spirulina.

Superior Quality
