

Plan of the wardrobe unit

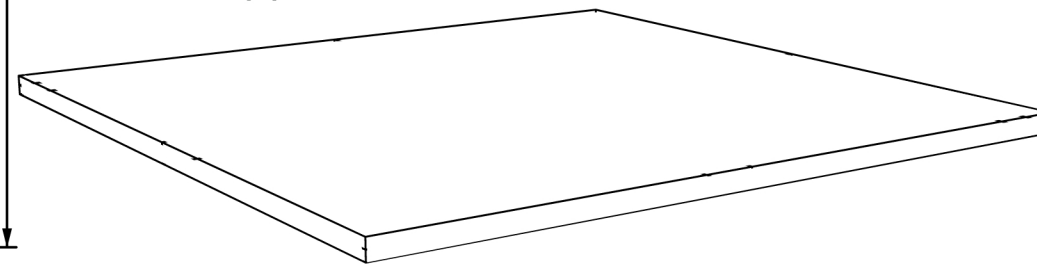

The steel section where the side panel is fixed using screws

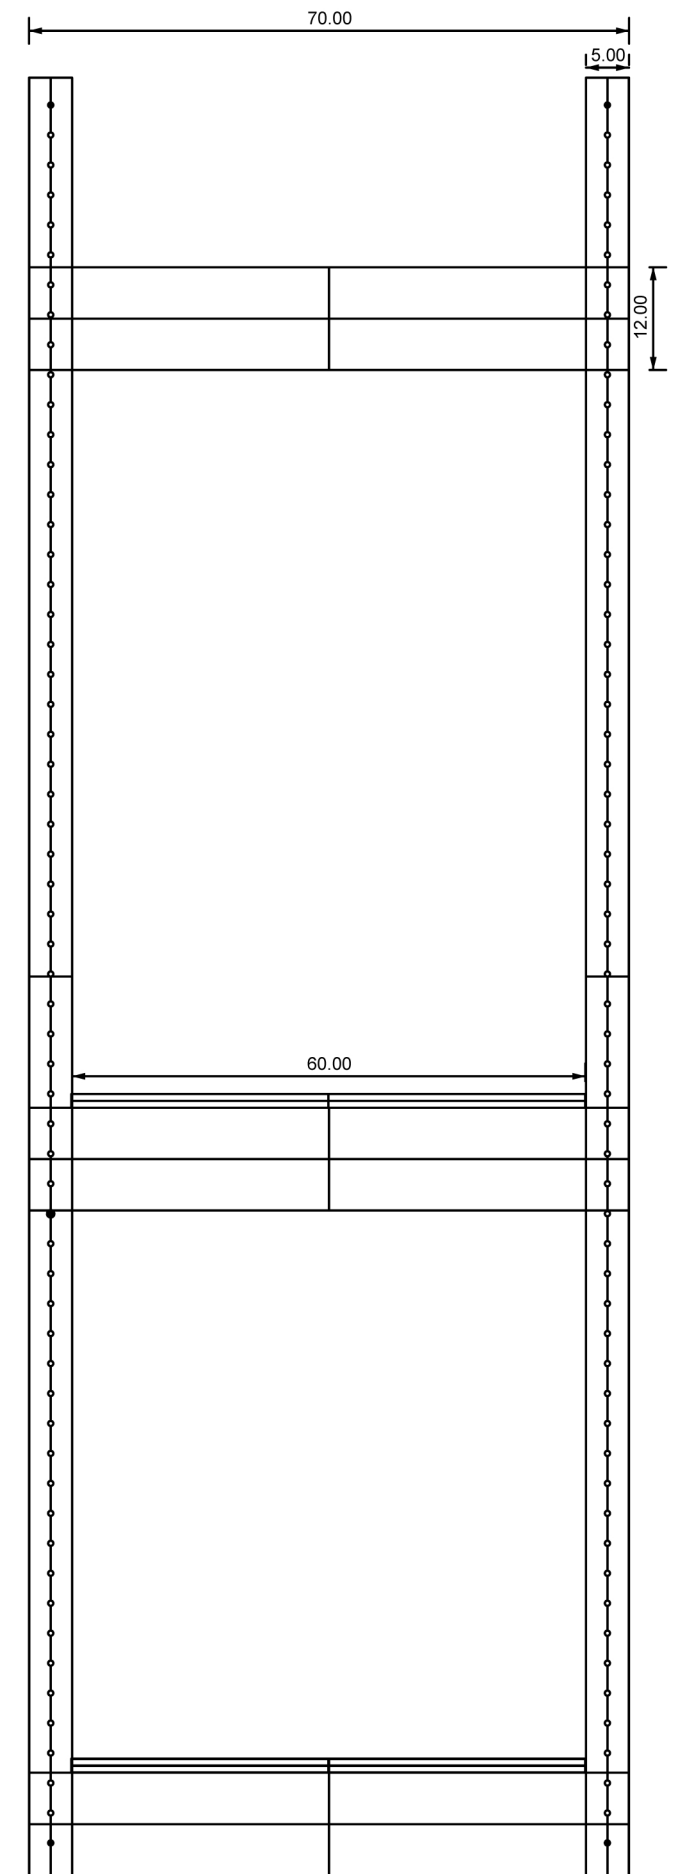

elevation of the wardrobe unit

The side panel

The shelf panel

Side of the wardrobe unit

Type : open / closed carcass optional ; unisex

Materials : boards (Bison / Plywood)

The concept has three main parts, the frame (steel sections) , the beams (side panels) , the Shelf panel,

The steel section has holes drilled at regular interval for fixing the side panels on which the shelving panel rests on.
