About Hybrid green label

Hybrid green label is an eco conscious footwear company that ties together outdoor lifestyle product with sustainable materials to create a unique and distinct style for each pair of shoes we design.

Our heritage was born between the streets of Williamsburg, Brooklyn and the trails of the Adirondack Mountains where the designers live and play.

Fun, hip, modern footwear...with a conscience.

We have partnered with eco friendly companies Ortholite & TOPGREEN and produced a rubber compound that is blended with natural gum rubber from trees & 30% recycled outsoles collected from industrial waste. Hybrid green label has a sense of style, feels great and continually strives to find environmentally friendly materials.
