

House of Kolor Kandys are alive and well in the state of California and meet all VOC rules state-wide.

2 PARTS UC25 + 1 PART RU300 + 1 PART KU150 + KANDY KONCENTRATE
RU REDUCER HARDENER SEE TECH MANUAL FOR MIXING RATIO

Currently, UK Kandys cannot be produced to meet the 3.5 lbs/gal VOC rules. Therefore, we have created the UC25 formulation to duplicate our current Kandy colors.

This way, our painters may continue to produce the show-stopping finishes they always have.

For specific application instructions, always refer to the House of Kolor Tech Manual

**3.5 LBS/GAL
OR LESS**

EASY.
