I live at ...
134 Hillside
Brighton
BN24FE
(UK)

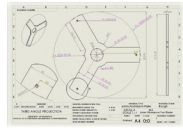

WHO?

I am a Product Designer! I was born in America and moved to England when I was very young, so I have dual citizenship. I am studying towards a BSc in Product Design at Brighton University, after taking a great interest into ergonomics and interactive studies, combined with the engineering nature of my course, I have designed and produced some interesting products. My goal is to design and produce products that will create a lasting impression through quality and innovation. This is why I believe that an Internship at your firm will give me the opportunity to develop my skills and talents to benefit a well established, recognized design company, whilst allowing me to gain valuable Professional experience.

BSC PRODUCT DESIGN

Using my CAD module to design and model my concepts

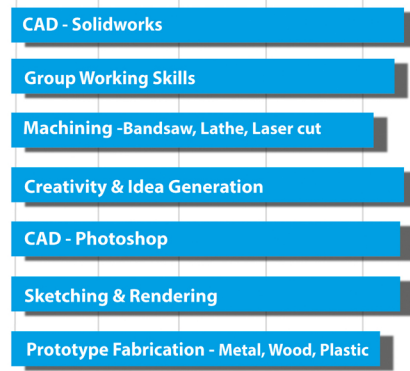

I have learnt to produce in depth engineering drawings through My CAD work

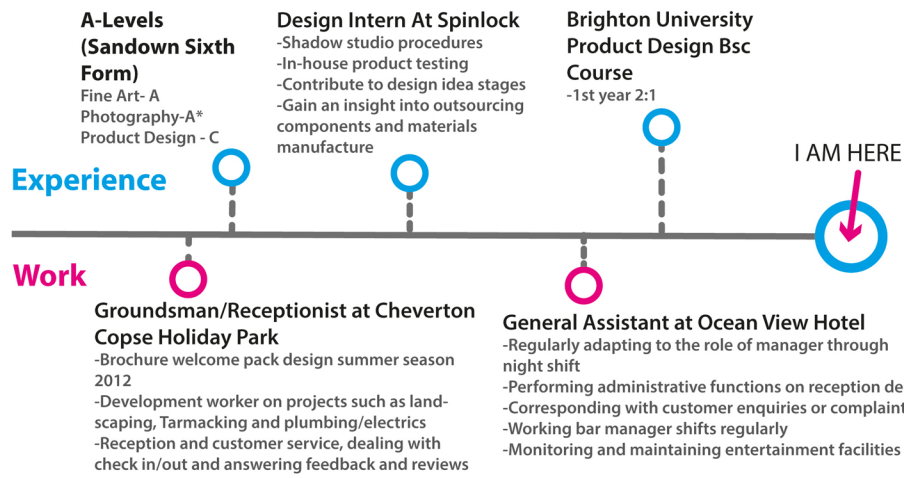

User Design has taught me to create emotional bonds through ergonomics

Skills Set

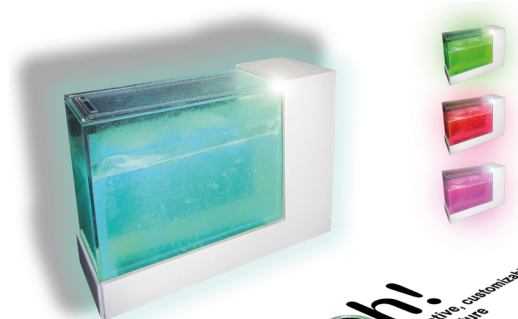

Driven DOWN TO EARTH Diligent
 Practical Dynamic
 Resourceful Trustworthy
 Reliable ME LOYAL
 ADAPTABLE Creative
 Self-Motivated Inquisitive
 Focused Exploratory
 CONFIDENT

HOBBIES:

I love to travel, and I believe that the approach to design comes from the mind, personality, and what has been learnt of the world. Through travelling I have expanded my approach to design.

Gloh! is a customizable mood lamp, that uses non toxic, non fading solution to encourage creativity and emotional bonding.

- Designed and Produced in 2012

Gloh!
A modern, creative, customizable glowing light feature
