

ARTFUL ROMANCE

- Art has made its way into our lives in variety of forms and captured the emotions we wish to express.
- Floral prints are oversized and painterly in feminine hues with soft blurred edges. Blossoms trail on vines or are engineered in new and unexpected ways.
- Detailed brush strokes and organic shapes are revamped with a sultry blend and fade effect utilizing color and layering.
- Seeping colors and the concept of the “one of a kind” print or woven, create emotion filled textiles with poetic character.
- Ornate prints are revamped in smoky summer blues.
- Fabrics include linen, slub weaves, washed batiks and cotton.
- Oxidized, time worn and tarnished patterns give an edge to traditional damasks and Jacobean prints.
