

# RAW HERITAGE

- Raw heritage - a concept based on self reflection and the need to disconnect and re-connect to a simpler life.
- Patterns are rhythmic and reflective.
- Colors reflect silence and solitude through a palette of muted earth tones, washed indigo and tawny highlights.
- Fabrics are textural including coarse linens, hemp, burlap and canvas.
- Weaves are loose with visible stitched seams. Details are “on the edge”: tipped, bound or with frayed edges to add character and rustic appeal.
