

Chelsea

**-wears 2 week contacts for 2 months**

-no rub solution depends whether she "swishes around" or rubs in her hand

**-didn't wash hands**

**-has trouble with lint**

**-drops contact in sink**

**-had contact case for 1 year**

**CHELSEA PUTTING CONTACTS IN 1 min 7 sec+**

0-3            3            takes glasses off

3-6            3            flips right case open

6-12          6            swirls finger around in solution to clean

12-20        8            adjusts contact on finger

**20-25        5            puts right contact back in case and swishes finger  
around to clean again, she says it looks dirty**

**25-34        9            adjusts contact on her finger, she says "it looks like  
I've never taken my contacts out before"**

34-39        5            puts contact in her eye

39-44        5            closes right side of case, opens left side

44-49        5            swirls finger around in case to clean contact

49-58        9            adjusts contact on finger

58-1.07      9            puts contact in eye

"she dumps it out and then puts more water back in case"

ISSUES –

Doesn't see when contact is dirty

Feels clumsy "It looks like ive never taken my contacts out before"
