

Infrastructure

- Station
 - Each station contains a sorter that organizes and passes on a delivery to the right messenger. Each quadrant has a station.
- Security/Priority
 - Messenger that personally delivers a package to its receiver. “Once its in the bag, its stays in the bag” delivery. Insures security, timely delivery, and is on call to pick up or drop off any important package.
- Regular
 - Average messenger that delivers standard mail. Delivers packages within assigned quadrant.
- Runner
 - Messenger that delivers standard packages between stations. Does not deliver to specific receivers, only stations.
