

PRINCE

These three paintings are from a client who asked me for some Prince artwork a famous singer song writer, but they wanted something different. Something that was unique, so i set about searching images of the celebrity and ended up producing the first one (top left). They really liked my work so asked me for two more.

In the middle painting the 3121 represents his tour, of which he toured for 31 days and performed in 21 different places. This was one of the clients requests to have in the painting.
