

It's time to rethink
your commitment to
Sparkle Motion...
I mean, the internet.

If you thought print was dead, think again. Our goal is to bring you well designed pages full of talent to inspire. Although the internet is flooded with cool things, that doesn't mean magazines are out of style. Tangibility is something to be appreciated and when you hold an issue of Austere in your hands, you have access to something so much more. Tear out our pages, put them on your walls, enjoy them and let them flood your brain with ideas that aren't from a brightly lit screen. Learn about the talented artists, musicians, and small businesses that we cover without having to worry if you're in a wi-fi friendly area. Get comfortable in our pages and make yourself at home. We're here to stay and we're glad you joined us.
