

## THE ANDERSON TRAY TABLE

Designer | Holly Neel

The life of a young professional dictates that the office is able to move to the closest available outlet, and dinner can move to the sofa. Hence the design intent of the Anderson Tray Table. The cantilevered foot allows the user to pull the table in close, and the dual trays provide multiple surfaces for serving and working. Made for everyday accessibility and convenience. For indoor/outdoor use.

Trays | ABS Plastic  
Table Top | Maple  
Legs | Stainless Steel

30 x 20 x 15.5

Trays shown in Paloma Grey  
and Hemlock

Tray options available
