

## ◀ BEFORE RAW DESIGN

Owner of Commerce Park decided it was time for a change and gave RAW a great opportunity to restore one of the oldest parks in Columbus. Take a look below at the new and improved Commerce Park. Enjoy.

## AFTER RAW DESIGN ▶

Commerce Park has been in dier need of a makeover for a decade and RAW did just that. This park had the potential to be beautiful and inviting for locals and those visiting the city. It needed some color, shape, and a modern twist. We replaced the broken up path way with new grass and created a waved pathway to allow more shape to come through. We then highlighted that path with circles made of stone and added some pop of color by spreading bright flowers throughout those circles.
